THE farmers of this valley should not forget that the building of the Enterprise canal is the most pracquestion.

THE article in last week's issue under the head of "That Trouble some Law," in regard to the Classification Law was taken from the Phenix Herald.

We can conceive of no reason why the laborer, the manufacturer, the farmer, the professional man and all, save the money-shark and interest-Shylock, should not be for a system that would mean enlarged foreign trade, busy factories, more consumers, with their more abundant demand, and greater prosperity for everybody, greater freedom for all, says the Wichita Eagle. Gold singly and alone becomes a tyrant, its owners absolute dictators, with kings and presipeoples their slaves.

An excellent solution of the Indian problem has been offered by the Denver News. It proposes to move all the Indians to the abandoned wastes of New England, near to the view and acquaintance of the Bostonese philanthropists. These critics know so much about Indians and negroes-a great deal more than do the people who live in the West and Southand the News wants to repopulate the New England States with Indians and let the associations and societies of that country run the business to suit themselves. Its a good suggestion and ought to work

## INTER-STATE DEMANDS.

A queen dispute has arisen between the Governor of Illinois and the Governor of Indiana under the law of Congress which provides for the rendition of fugitives from justice who have fled from one State into another State.

Some time ago a man named David Bryan was charged with having committed some criminal form of swindling in Chicago. He was discovered in Indiana and Governor Altgeld of Illinois made a requisition upon Governor Matthews of Indiana for the surrender of the alleged fugitive. The demand was refused. Bryan had been arrested in Indiana upon some trivial charge there, and pending the hearing and determination of this charge Governor Matthews would not allow him to be taken out of the State.

Not long after this refusal Governor Matthews had occasion to issue a requisition for a man named count of my wedding, sir.
